

Packaging Material List for Common

No.	Photo of packaging	Type of packaging	Material	Material Identification Code	note
1		heavy goods packaging	lid-sleeve : Corrugated Cardboard bottom : Corrugated Cardboard-wood	lid,sleeve : PAP 20 bottom : PAP 20, FOR 50	We do not use this when the shipment volume is small or the weight is light.
2		cushion sheet	Low Density Polyethylene	LDPE 4	This may be placed under the product only if the base of the heavy-duty packaging is made of wood.
3		heavy goods packaging	lid-sleeve-bottom : Corrugated Cardboard	lid,sleeve,bottom : PAP 20	We do not use this when the shipment volume is small or the weight is light.
4		PP band for heavy goods packaging	Polypropylene	PP 5	
5		outer packing cardboard box	Corrugated Cardboard	PAP 20	
6		PP band for box	Polypropylene	PP 5	The color of this item may differ from the actual product. (e.g., transparent, black, etc.)
7		tape	Polypropylene	PP 5	The color of this product may differ from that of the actual cargo. (e.g., transparent, brown, etc.) In addition to sealing the box, it is used to protect damaged areas.
8		tape	Paper	PAP 22	
9	 	tape	cellophane	OTHER 7	
10		casemark label	Paper	PAP 22	84.9g/m ²
11		New Air cushion	Low Density Polyethylene	LDPE 4	Depending on the quantity of products and the size of the empty space inside the box, this may not be used.
12		Fill Air cushion	High Density Polyethylene	HDPE 2	

13		Fill Air Recycle cushion	High Density Polyethylene	HDPE 2	Contains 50% recycled material, 30% of which is post-consumer recycled material
14		Air Quick cushion	High Density Polyethylene	HDPE 2	
15		Bubble Wrap Packaging	Low Density Polyethylene	LDPE 4	The color of this item may differ from the actual product. (e.g., transparent, pink, etc.)
16		cushioning material	・Plastic bag →Low Density Polyethylene ・Cushioning material →Corn starch, Polypropylene	・Plastic bag ⇒LDPE 4 ・Cushioning material →OTHER 7 (※)	Depending on the quantity of products and the amount of empty space inside the box, this item may not be used. (※ Percentage) polypropylene→40% cornstarch→60%
17		cushioning material	・Plastic bag →Low Density Polyethylene ・Cushioning material →Corn starch, Polypropylene	・Plastic bag ⇒LDPE 4 ・Cushioning material →OTHER 7 (※)	Depending on the quantity of products and the amount of empty space inside the box, this item may not be used. (※ Percentage) polypropylene→30% cornstarch→70%
18		cushioning material	・Plastic bag →Low Density Polyethylene ・Cushioning material →Corn starch, Polypropylene	・Plastic bag ⇒LDPE 4 ・Cushioning material →OTHER 7 (※)	Depending on the quantity of products and the amount of empty space inside the box, this item may not be used. (※ Percentage) polypropylene→30% cornstarch→70%
19		cushioning material (sheet)	Polypropylene Cornstarch	OTHER 7 (※)	Depending on the quantity of products and the amount of empty space inside the box, this item may not be used. (※ Percentage) polypropylene→40% cornstarch→60%
20		CUSHIONING MATERIAL	Low Density Polyethylene	LDPE 4	
21		Paper cushioning material	Paper	PAP 22	
22		Paper cushioning material	Paper	PAP 22	
23		Plastic bag	Low Density Polyethylene	LDPE 4	
24		Envelope	Low Density Polyethylene	LDPE 4	Non-adhesive Use depending on the contents and the shipping factory. (A 1/5)
25		Envelope	Low Density Polyethylene	LDPE 4	Adhesiveness Use depending on the contents and the shipping factory. (A 2/5)

26		Envelope	Low Density Polyethylene	LDPE 4	Adhesiveness Use depending on the contents and the shipping factory. (A 3/5)
27		Envelope	Low Density Polyethylene	LDPE 4	Adhesiveness Use depending on the contents and the shipping factory. (A 4/5)
28		Envelope	Low Density Polyethylene	LDPE 4	Adhesiveness Use depending on the contents and the shipping factory. (A 5/5)
29		Envelope	Low Density Polyethylene	LDPE 4	
30		Envelope	Low Density Polyethylene	LDPE 4	
31		Envelope	Paper	PAP 22	Less than 84.9 g/m ²
32		Warning label	Paper	PAP 22	Less than 84.9 g/m ² If requested by the client, we have attached it. Please note that the display format may differ from the actual product.
33		RoHS label	Paper	PAP 22	Less than 84.9 g/m ² If requested by the client, we have attached it. Please note that the display format may differ from the actual product.
34		side label	Paper	PAP 22	84.9g/m ² If requested by the client, we have attached it. Please note that the display format may differ from the actual product. (B 1/2)
35		side label	Paper	PAP 22	84.9g/m ² If requested by the client, we have attached it. Please note that the display format may differ from the actual product. (B 2/2)
36		Invoice (for Japanese shipping company)	Paper	PAP 22	Less than 250g/m ² Please note that the display format may differ from the actual product.
37		Wrap	Low Density Polyethylene	LDPE 4	To prevent cargo from shifting or getting wet by Kyocera. Contains 50% recycled material.
38		Wrap	Low Density Polyethylene	LDPE 4	For repair by forwarder. The actual product may differ from the photo.

39		Pallet	Paper	PAP 22	The actual product may differ from the photo.
40		Pallet	Polypropylene	PP 5	The actual product may differ from the photo.
41		PET band for heavy goods packaging	Polyethylene Terephthalate	PET 1	The surface is flat and smooth.
42		Band bracket for heavy goods packaging	Steel	FE 40	Composition by weight: Iron (Fe): 95% or more Other alloying elements (manganese, nickel, chromium, molybdenum, copper): less than 5%
43		Band bracket for heavy goods packaging	Steel	FE 40	Composition by weight: manganese 0.6% or less nickel 0.2% or less chromium 0.1% or less copper 0.2% or less tin 5% or less steel rest
44		Corner Pad	Non-Corrugated Cardboard	PAP 21
